PREPARED FOR iDeliver III — Operations

iDeliver III delivery management suite

Valid for 30 days

Subject: Change request — driver application (returnable items, totals, closed-order payments, Arabic addresses)

The following changes have been reviewed and estimated. Each item is priced individually so that any of them may be accepted, deferred or declined without affecting the others.

Section A — Driver Application

Changes to the driver mobile application. Includes one full build, test and distribution cycle to the drivers' devices.

REF	DESCRIPTION	PRICE (USD)
A1	Returnable items scoped per driver Each driver sees and collects only his own returnable items, instead of the whole company list.	175.00
A2	Delivery-fee and order totals on the driver app The driver sees his own running total and order count, saving time during money collection.	175.00
A3	Block payment on a closed order Prevents the driver from collecting money against an order that is already closed.	100.00
A4	Arabic delivery addresses Arabic address field carried through the office, customer app and driver app, so drivers who do not read English can work from the address.	575.00
A5	Application build, testing and rollout One release cycle covering the changes above.	125.00

Driver Application	1,150.00
Total before discount	1,150.00
Special discount (10%)	- 115.00
TOTAL PAYABLE	USD 1,035.00

Terms and conditions

- Prices are in US Dollars and exclude any third-party or platform fees (application store accounts, hosting, SMS or mapping charges), which are billed at cost if incurred.
- This quotation is valid for 30 days from the date above.
- Payment terms: 50% on acceptance, 50% on delivery.
- Item A4 is quoted at the fuller scope: a dedicated Arabic address field carried through the office, customer and driver applications. If the requirement is only to display an address that is already typed in Arabic, this item reduces to USD 100.
- This section requires a new version of the driver application to be installed on each driver's device. Delivery is complete once the new version is published.
- Defects in the delivered items are corrected free of charge for 30 days after delivery. New requirements raised after acceptance are quoted separately.
